

The four controls next to the left handlebar grip are:

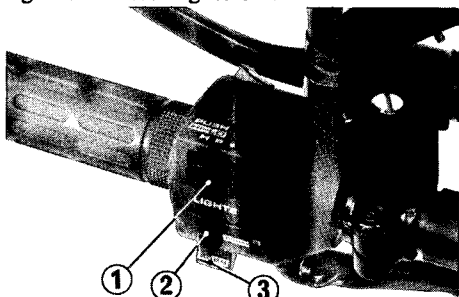

Headlight Switch (1)

The headlight switch has three positions; "H", "P" and "OFF" marked by a dot to the right of "P".

H: Headlight, taillight, position light and meter lights on.

P: Position light, taillight and meter lights on.

OFF (dot): Headlight, taillight, position light and meter lights off.

(1) Headlight switch
(3) Horn button

(2) Turn signal switch

Turn Signal Switch (2)

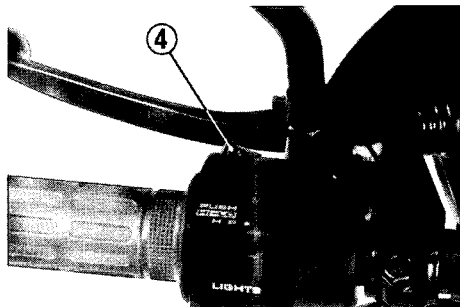

Move to L to signal a left turn, R to signal a right turn. Return to the center (off) when finished.

Horn Button (3)

Press the button to sound the horn.

Passing Light Control Switch (4)

When this switch is pressed, the headlight's high beam will flash on to signal cars that you intend to pass.
