

WARNING

- * *FOUR TRAX riding requires special efforts on your part to ensure your safety. Know these requirements before you ride.*
- * *Avoid riding on paved surfaces as handling can be seriously affected. If it is necessary, ride at reduced speeds and avoid sudden turns.*

SAFE RIDING RULES

- * Always make a pre-ride inspection (page 26) before you ride the FOUR TRAX. You may prevent an accident or equipment damage.
- * Always obey local off-road riding laws and regulations.
- * Obtain permission to ride on private property. Avoid posted areas and obey "no trespassing" signs.
- * Do not ride fast on unfamiliar terrain or when visibility is limited. Before riding in a new area, check the terrain thoroughly. Never ride headlong past your limit of visibility. It is sometimes impossible to see obstructions, holes and depressions. Always exercise caution.
- * Your ability to operate the FOUR TRAX safely is largely dependent upon your proper judgement.

- * Maintain a safe distance between your FOUR TRAX and other off-road vehicles.
- * Do not ride on or near railroad tracks as it is difficult to hear an approaching train.
- * When you select reverse gear, make sure there are no obstacles or people behind you. When it is safe to proceed, ride slowly.
- * Alcohol, drugs and FOUR TRAX's don't mix. Even the smallest amount of alcohol can impair your ability to operate your FOUR TRAX safely. Likewise, drugs, even if prescribed by a physician, can be dangerous while operating a FOUR TRAX. Consult your doctor to be sure it is safe to operate a motor vehicle after taking medication.

PROTECTIVE APPAREL

- * Always wear a helmet. You should also wear a face shield or goggles, boots, gloves and protective clothing.
- * The exhaust system becomes very hot during operation and it remains hot after operation. Never touch any part of the hot exhaust system. Wear clothing that fully covers your legs.
